GETTING PREPARED

FACT SHEET

AIRPORT TRANSFERS

Please check with your agent that they have forwarded through your flight details. If you would like to double check your transfers, please feel free to email reservations@kurumba.com to reconfirm.

ARRIVING

When arriving into the Maldives, you will notice the airport is a separate Island called Hule Male' and the approach is quite spectacular to see if you have a window seat through the day. The airport does not have air bridges and you can expect to feel an average of 30 degrees Celsius as soon as you leave the plane, so we advise not to put on additional layers. Once you have completed your immigration form and cleared immigration, you will pass customs. Please note the very strict rules on alcohol (will confiscate and not return), pork and other restrictions as mentioned below. Once you have cleared customs, walk outside and one of our team members will be waiting outside with a Kurumba sign. If the person is assisting another guest, please go to the Universal Resorts counter on the left hand side. When all the guests on that flight have cleared customs, our team will take you to the Kurumba launch and your transfer will take approximately 10 minutes. When checking in, we will need your passport and a copy of your credit card for pre authorization. If you have booked via an online travel agent, please ensure that you pre register or email us your flight details.

LEGALITIES IN THE MALDIVES IN BRIEF

Entry and Exit Requirements

- A completed Disembarkation/Embarkation card. Blank cards are usually handed out on the inward flight, but otherwise they are available in the Immigration Hall. You will need to enter your passport number so it is a good idea to have this handy on the flight.
- A no-cost 30 day Visitor Visa. This is issued on arrival, with the date stamped in your passport. Requests for extensions to this visa (up to a total of 90 days) should be made to the Department of Immigration and Emigration. These are generally approved provided there is evidence of sufficient funds to finance the extension and you are staying on a resort island.
- If you are travelling from a Yellow Fever Infection area, a current Immunization Certificate is required.
- If you arrive without a hotel reservation, you must have at least \$100 + \$50 per day at your disposal.
- A Departure Tax is payable, but this is usually included in your airline ticket.
- For the most up to date tourist visa information, please visit <http://www.immigration.gov.mv>

Importing/Exporting Goods

All luggage is x-rayed by Customs, after immigration. The following items may not be brought into the Maldives:

- Narcotics : The Maldives has strong anti-drug laws. Possession of drugs can result in serious repercussions. It is a good idea to carry either a Doctor's letter or a copy of a current prescription, if carrying medicines.
- Alcohol : This is readily available on the resort islands. It is not available in Male or at the airport. If you have bought Duty Free on your inward flight, it will be confiscated at immigration and will not be returned.
- Religious Materials : If deemed contrary to Islam, including "idols for worship" will be confiscated. A bible for personal use is acceptable.
- Pork and pork products
- Pornographic material
- Explosives, weapons, firearms and ammunition

There is a very long list of items that may not be exported which can be summarised as:

- Coral
- Fish
- Shells
- Any shark items

The following are also forbidden in the Maldives:

- Fishing from beaches, an island and with rods. This is illegal. If you wish to fish, you may do so by booking one of the fishing trips organised and run by the resort islands.
- Collection of Marine items
- Nudism and topless sunbathing. Bikinis, board shorts and Speedos whilst on the island is more than acceptable when you are on the beach.

LOCAL TIME

Kurumba Maldives is 9 hours ahead of Eastern Standard Time, 12 hours ahead of Pacific Standard and UTC/GMT + 5 hrs.

PAYMENT & MONEY

Please note that we accept USD, Pound, Euro & Maldivian Rufiyaa and Visa, MasterCard, American Express, Maestro & CUP credit cards. There is no need to exchange your currency into Maldivian Rufiyaa prior to arrival at the resort as this may not be able to be converted back into your own currency. In the Maldives, there is quite a difference between the buying and selling rates. If you intend to pay in cash, the Maldives Banks are pedantic about the quality of the tender, hence cash will need to be free of tears, fading or any other defects to be accepted.

PRE-REGISTRATION

Please feel free to pre register and tell us about your dietary requirements, other preferences and reconfirming your travel times. This can also make the check in process a little more efficient; Please feel free to click here. <http://www.kurumba.com/pre-register/>

RELIGION

Islam was introduced around 800 AD and the moderate form practiced in the Maldives has remained virtually unchanged. Government regulation does not allow any form of other religious statues, monuments or celebrations within the Maldives. During the holy month of Ramadan (August/September), Muslims are required to fast between sunrise and sunset. They are expected to use this period of abstinence for prayer and contemplation. In practice, guests on Kurumba are unlikely to be affected by Ramadan but there may be some periods where a few extra staff have left for a quick meal break.

ROOM AMENITIES

In all guest rooms are soaps, shampoos, conditioner, moisturizer, cotton buds and pads, bath towels, beach towels, umbrellas, hair dryers, safes, tea and coffee making facilities, 1.5 liters of drinking water per person, mini bar & a guest compendium. As your room grade is improved, the amenities become more expansive such as beach slippers, beach bags, hot chocolate, espresso coffee etc. Sun Loungers on the beach and around the pools are provided.

SHOPPING

The capital, Male is the ideal place to shop. Stores open anytime between 07:30 and 09:30 and close at 23:00. On Friday, they open at 13:30 and close at 23:00.

Kurumba's breeze boutique in reception offers a range of swimwear, snorkelling equipment, fashion wear, gift ware, toiletries, snacks, entertainment items, local arts and crafts and prices similar if not lower than Male.

TRAVEL INSURANCE

The reality is that with any holiday, we should all consider travel insurance. It's probably a good idea to think about holiday insurance for your Maldives trip.

TELEPHONES

If you've got a mobile phone, then we should say that it seems that only the major islands are covered by the Dhiragu. This operator uses a GSM 900 network, which is well-suited with many international cell phone operators. However, please check your roaming costs as this can be expensive. You can purchase a pre paid sim card at the airport just outside of arrivals. Skype or similar programs can be used however the internet speeds can be intermittent throughout the Maldives.
