

A dream of white sand and turquoise sea? Then we have an idea for you. Your perfect Maldives trip: **Kuru** island of Kurumba is located on the North Male Atoll and is only 10 minutes by speedboat from the airport perfect after a 10 hours flight.

Just the idea of another 2 hours sailing on a motor boat to the next island ....noooo. And also Kurumba is c resorts in the world. Here, along with beautiful and secluded beaches, there are fantastic beauty treatme food and a house reef with beautiful corals and fish.

The most important thing here is: arrive. Switch off. Relax.

Honestly, the Maldives trip is perfect and Kurumba is so incredibly beautiful and relaxed, i think it does nc

Particularly relaxing can be accomplished on this island excellently. And if it gets boring, you can of course of tours, such as: A dolphin cruise, a visit to Male or at the door of one of the sports equipment, e.g. The S rent and thus in the lagoon (an hour costs nothing).

The weather is nice all year round – even in the rainy season, a visit to the Maldives is worth it, as it rains a little time – but not cold. And if you snorkel or dive, the weather is not interested in water anyway.

The rooms are mostly right on the beach and even if someone next door lives, you get it rare with. Even if small, you do not come here on your feet! There is no fight on the beach with the towels on the beach chairs. The villa has its own sun loungers on the water – as many as the villa residents have.

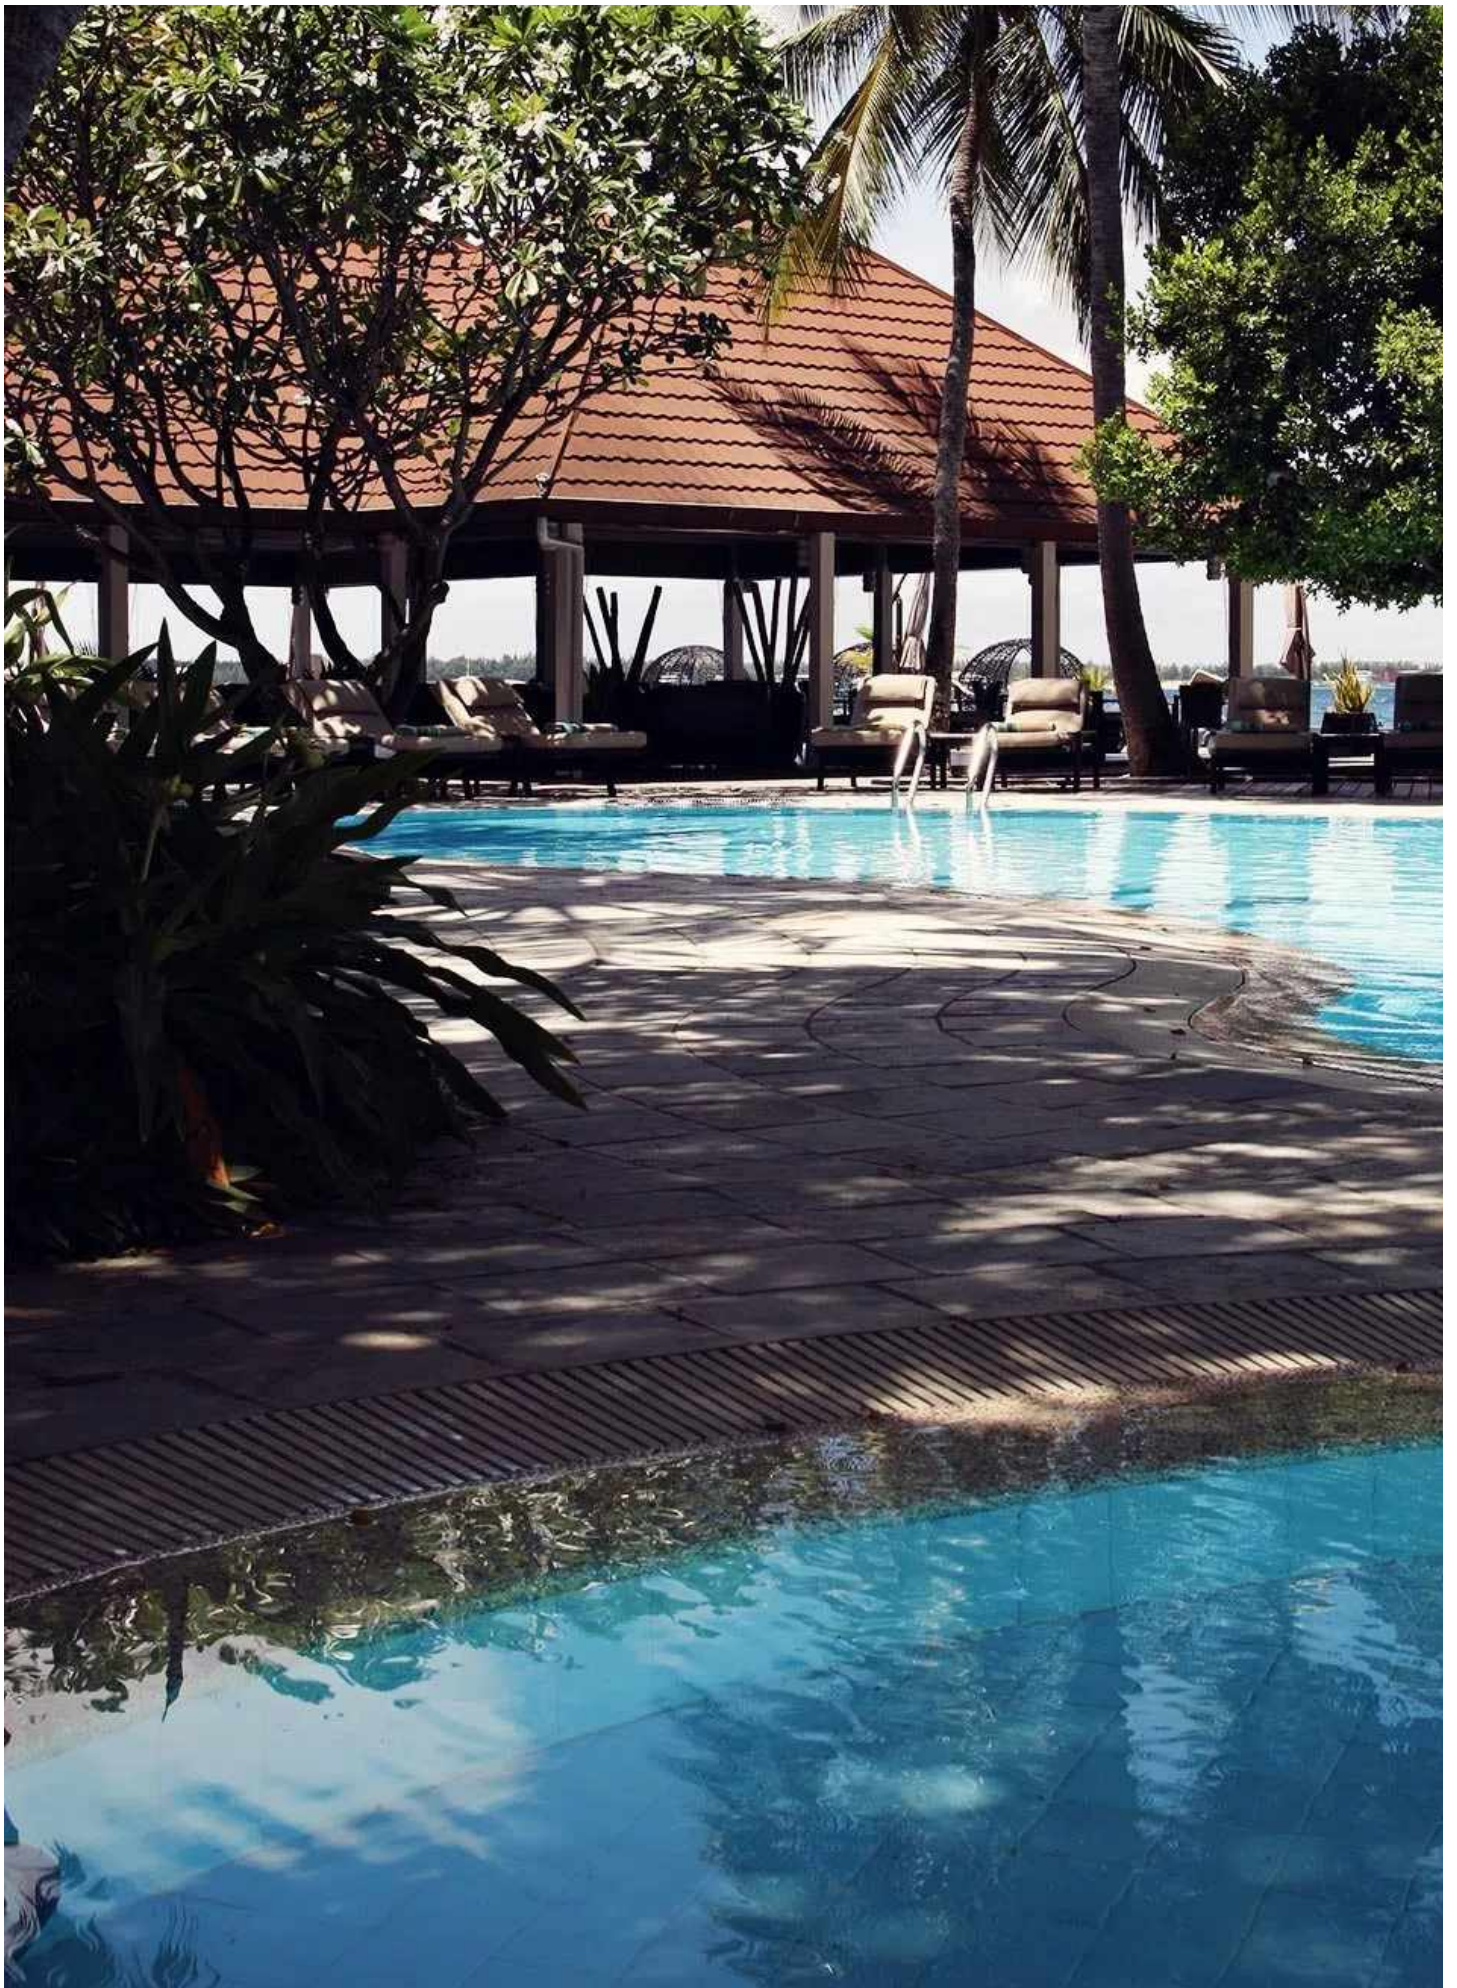

On Kurumba it is beautiful for families and couples alike, for newly married couples there is a honeymoon included. The island also tries to produce little garbage and is committed to the conservation of nature or. Also, there is plenty to do, wine tasting at sunset in the sea, dances of the locals and guided tours of the i fraction of the offer on the island.

But even if you just want to spend a week at the beach to finally switch off is exactly right here!
